With it children can even record their own voices to practice their pronunciation and intonation.

As well as fiction titles, the series now includes a collection of Children’s True Stories: Real Lives. Children from different countries around the world tell us about their daily lives and culture. In addition to the games and activities that accompany the text, the Real Lives titles offer some specific features including: an introduction to the country with interesting facts and information, authentic photos, and tasks to encourage critical thinking, cultural awareness and build on creative and team skills. Each of the Real Lives titles is the result of a cooperation between ELI and a specific NGO (Non-Governmental Organization) to which ELI donates part of the proceeds for relevant development and aid projects.

There are four stages available in this series, graded according to the number of headwords, which correspond to the beginner levels of the CEFR.

EFL 7
Young Adult ELI Readers - English
ELI PUBLISHING

These well-illustrated readers include a mixture of classic and original titles. Each book is accompanied by an audio CD with a narration of the text, read by a native speaker. The books are divided into chapters with a glossary at the foot of each page where necessary. The variety of activities before and after each chapter aid comprehension and enrich the language learning process, while a selection of useful dossiers provide additional information about the author and cultural context of the text. A brief 'Test Yourself' section of activities concludes each book.
