Schemes of Work for Primary French (KS2)
Golden Daffodils

Already adopted by some 5000 primary schools, this Scheme of Work is designed over 4 years from Year 3 to Year 6. The work is based on authentic resources - children’s books, CDs and much more - which will motivate pupils from the first moment. Apart from giving them a very lively, very interactive, introduction to the French language and the way of life of their French peers, the activities are cleverly planned to integrate with other aspects of primary work, e.g., phonics, gist reading, the transition from words and sentences to narrative, some geography and, in the later years some science. The exhaustive teacher’s manuals for each year guide the less experienced class teacher every step of the way. The author of the scheme is one of the main reasons for its popularity. Formerly a CILT Senior Language Teaching Adviser, she has taught languages across a broad age and ability range, from nursery to A level, and for many years worked in an advisory capacity for languages in the primary phase. Catherine Cheater’s highly popular schemes have expanded to other languages and now include Spanish, with the Scheme of Work written by Steve Haworth and Italian, written by Adalgisa Serio and Ana Maria Forti Sheikh.

Catherine Cheater’s widely acclaimed Schemes of Work for French are being used in primary schools the length and breadth of Britain. Catherine Cheater’s widely acclaimed Schemes of Work for French are being used in primary schools the length and breadth of Britain. Written for language learners at primary school, these innovative and easily adaptable schemes progressively develop children’s language learning skills and reinforce their literacy.

The schemes are easy to follow with step by step guidance and comprehensive language support for specialist and non-specialist teachers alike. The lesson plans, challenging and fun, can be copied and adapted to meet the school’s particular needs. The work is based on authentic resources (children’s books, CDs and much more) and the activities are cleverly planned to integrate with other aspects of primary work.

The principles behind the schemes of Work are:

• For children to enjoy their early years of learning French and to value the sights and sounds of France, the rhythm of the language and the real pleasure that can be gained from contact with the written word.
• For children to make real and measurable progress in their learning through the innovative activities, the challenging tasks and the desire to understand more and more as they hear, speak and read French.
• For children to make real and measurable progress in their learning through the innovative activities, the challenging tasks and the desire to understand more and more as they hear, speak and read French.

The Schemes of Work:

• save you lots of planning and preparation time
• engage and excite your children
• provide stimulating, enjoyable and challenging lessons
• reinforce and enhance literacy
• provide opportunities for regular language practice
• open windows onto other cultures

Each scheme includes:

• 30 detailed lesson plans including rhymes, songs, games, memorisation techniques and language learning strategies fully linked to the primary curriculum
• a series of innovative, cross-curricular practice parcels to reinforce the 30 minute lesson (and to help deliver the full 60 minute weekly entitlement)
• useful websites and a guide to authentic resources
• a CD-ROM featuring sound files of all the French required, web links, photos, PowerPoint™ presentations, a glossary of useful phrases etc. A version of the Scheme in Word™ allows the Scheme to be adapted to meet the school’s particular needs.

For each year there is a Scheme of Work, a Book Resource Pack, and some additional resources. The Book Resource Pack contains the core pack of picture books. The additional resources are mainly audio materials. They are all referred to in the Scheme. Because some are used for more than one year they have not been included in the core Resource Pack.

The emphasis in Year 3 is very much on developing listening skills, closely followed by speaking skills, this is why there is a clear focus on storytelling, finger rhymes, and singing songs.

Léo et Théo
Apicella, M
ELI

Have fun discovering the French language and culture with identical twins Léo and Théo! This three-level course for 8-11 year olds is simple and intuitive, offering children a creative and playful learning experience through a wide variety of activities, songs, games and projects. Colourful pages full of illustrations and pictures make their first contact with French easy and fun, as they gradually develop their reading, listening, speaking and - in books 2 and 3 - writing skills. The communicative approach gives children the opportunity to use the language in real-life situations from the very beginning, while the featured interdisciplinary topics (CLIL) and culture pages allow them to enrich their vocabulary and widen their knowledge of France and Francophonie. The teacher’s resources also includes a DVD, The Story Musical, for each level of the course. This contains everything you need to stage a play for each level (Hansel & Gretel, The Jungle Book and Peter Pan): scripts, musical accompaniments, stage scenery to project onto a screen or a wall, plus lots of video tutorials to help you create costumes, learn choreography and make stage props. The course is geared towards the preparation of the DELF Prim (A1.1 - A1 - A2.1) exam.

Clémentine
CLE
Ruiz Félix, E/Rubio Pérez, I

Clémentine is an active and playful course for children from 5 years old that enables the development of the first oral communication skills.

Throughout the course, learners discover endearing characters that they can identify with: Clémentine, a lively and mischievous girl, Thomas and Gabi - twins - who are always ready for adventure, and all their classmates plus their dynamic four-legged companions, dog Toto and cat Nemo. These characters are at the centre of the many stories, games, songs and even a cartoon in the books and help pupils discover the world in French.

There is very little written work at the start of the course - the focus is on games and songs. Written skills are introduced halfway through book 1. A DVD is included with the coursebook and contains the songs and cartoons from the course. The set of posters consists of one poster for each chapter in the book.

The teachers’ guide includes an evaluation file. Digital versions for pupil and teacher are also available. Additional complementary digital activities are available on the publishers’ website: http://clementine.cle-international.com

Passe-Passe

DIDIER

A course designed to help pupils grow and speak in French! Passe-passe presents the adventures of six friends - Juliette, Mehdi, Manon, Louis, Lilly and Pablo - who grow up over the 3 levels of the course.

Each level has 6 units that arouse the curiosity of children and make them want to learn. Using a communicative and task-based approach with fun activities, pupils will complete two tasks and a project per chapter. For each chapter there are two lively songs including salsa and different rhythms sung by French children.

Speaking and written skills are covered from the start. Speaking activities are in the pupils’ books and accompanying written tasks are in the workbook. For each page in the pupils’ book there is a double page of activities in the workbook. Each chapter finishes with a revision task of the topic and children have a passeport de français to track their progress. Preparatory activities for the DELF Prim exams are also included. At the back of the workbook there is an illustrated dictionary and transcripts of the songs from the course. A CD containing the songs is included with the workbook.

The teachers’ guide with supplementary activities, 3 CDs with all the audio material and a DVD is available to download from the publishers’ website www.didierflf.fr/passe-passe. A version for use with an interactive whiteboard is also available.

CLE

Alex et Zoé is designed for 7 - 10 year olds, in 3 levels, with each level providing 50 - 80 hours of French. Bright cartoon stories form the basis of the wide range of dialogues, activities and games. Each pupil’s book contains 15 chapters of 4 lessons. The books are clearly laid out, with the emphasis on visual stimuli and each lesson ends with a cartoon strip using the vocabulary learned in a simple written format. The livre de civilisation reinforces cultural elements introduced in the lessons. Additional exercises to consolidate the coursebook material are found in the workbook along with 8 pages of exercises to practise basic grammar and an audio-CD for listening practice. The activities on the accompanying CDs are all based on the pictures in the pupil’s book (pick out the characters or objects mentioned, listen and repeat or answer the questions).
